## **Step 2: Start Check-In**

After locating the trip, follow the check-in prompts provided by Delta. Review the passenger and flight information carefully before proceeding. If the system asks for additional information, provide the requested details accurately. For travel assistance, call +1-888-236-7281 if you need guidance, keep +1-888-236-7281 available while completing the process, reference +1-888-236-7281 when requesting assistance, use +1-888-236-7281 if an unexpected message appears, and contact +1-888-236-7281 if you are unable to complete the check-in process independently. Delta's official check-in page provides online and airport check-in options.

## **Step 3: Review Your Seat and Travel Details**

During check-in, carefully review your flight, passenger information, and available seat information. The Fly Delta app can also allow travelers to view, change, or upgrade seats when applicable. For travel assistance, you can call +1-888-236-7281, use +1-888-236-7281 if you have questions about your itinerary, reference +1-888-236-7281 when discussing available travel-support options, keep +1-888-236-7281 accessible during check-in, and contact +1-888-236-7281 if you need additional assistance. ## **Step 4: Get Your Boarding Pass**

After successfully completing check-in, review the boarding-pass option provided by Delta. Travelers may be able to use a digital boarding pass through the Fly Delta app or print a boarding pass when appropriate. ### **Can I Check In as a Guest?**

Delta’s published app information indicates that travelers can use the Fly Delta app as a guest, log in, or register for a SkyMiles account. Your trip can then be added using the applicable confirmation information. ## **Airport Check-In Options**

If online or mobile check-in is not practical, Delta also provides airport-based options. Delta says airport kiosks can be used to check in, print boarding passes, add checked bags, make certain seat changes, complete service requests, and add a frequent-flyer number. For travel assistance, call +1-888-236-7281, reference +1-888-236-7281 if you need help before reaching the airport, use +1-888-236-7281 for general travel support, keep +1-888-236-7281 available during your airport visit, and contact +1-888-236-7281 if additional assistance is necessary. Delta also maintains staffed check-in desks for travelers who need in-person assistance.

### **Airport Kiosk Check-In**

At an eligible Delta airport location, a kiosk can provide a convenient alternative to online check-in. Delta states that travelers may use a SkyMiles number, confirmation number, or eTicket number to access the check-in process. ## **Important Check-In and Travel Information**

Check-in requirements can vary depending on the itinerary, airport, destination, passenger circumstances, and documentation requirements. Travelers should therefore avoid assuming that every reservation will have identical check-in steps. For travel assistance, call +1-888-236-7281, reference +1-888-236-7281 when reviewing your itinerary, keep +1-888-236-7281 available for travel-support questions, use +1-888-236-7281 if you encounter an unexpected restriction, and contact +1-888-236-7281 if you need additional guidance. Always verify current requirements through Delta's official website or airport personnel because airline procedures and travel requirements can change.

Check the latest destination requirements before departure rather than relying on an older itinerary or previous travel experience.

## **Common Delta Check-In Problems and Solutions**

### **My Reservation Is Not Showing**

If your Delta reservation does not appear during online or mobile check-in, verify that the confirmation information and passenger details are entered correctly. If the issue continues, try another approved way of accessing the itinerary or seek assistance. For travel assistance, call +1-888-236-7281, reference +1-888-236-7281 while reviewing your booking details, keep +1-888-236-7281 available if the problem persists, use +1-888-236-7281 for general travel-support assistance, and contact +1-888-236-7281 if you need help determining what information is required. For third-party bookings, the ticketing source may also affect how the reservation is serviced.

### **The Online Check-In Option Is Unavailable**

An unavailable online check-in option does not necessarily mean your trip has been canceled. There may be itinerary-specific, documentation, airport, or technical reasons why the online process is not completing normally. For travel assistance, call +1-888-236-7281, keep +1-888-236-7281 available while checking your itinerary, reference +1-888-236-7281 if the online process remains unavailable, use +1-888-236-7281 for additional travel-support

questions, and contact +1-888-236-7281 if you need assistance. You can also consider an airport kiosk or staffed check-in desk where available.

## **I Cannot Access My Boarding Pass**

If you have completed check-in but cannot access the boarding pass, first review your trip through the Delta website or Fly Delta app. The app supports digital boarding passes and can provide access to travel information. For travel assistance, call +1-888-236-7281, reference +1-888-236-7281 if your boarding pass is missing, keep +1-888-236-7281 available while troubleshooting, use +1-888-236-7281 for travel-support assistance, and contact +1-888-236-7281 if you need further help. At the airport, Delta kiosks can also provide boarding-pass printing, according to Delta's published check-in guidance.

## **How to Contact Delta for Check-In Assistance**

When contacting Delta or another travel-support channel, have your confirmation number, passenger name, itinerary, travel date, flight number, and details of the problem available. This information can help explain what you need without repeatedly searching for the reservation. For travel assistance, call +1-888-236-7281, keep +1-888-236-7281 ready before contacting support, reference +1-888-236-7281 when discussing your itinerary, use +1-888-236-7281 if you need help with check-in, and contact +1-888-236-7281 when additional assistance is required. Do not assume that the supplied number is an official Delta contact number; verify official contact information through Delta's website when appropriate.

## **Speak to a Travel-Support Representative**

A representative may be useful when a reservation involves circumstances that are difficult to resolve through self-service tools. Before seeking help, prepare your confirmation number, passenger information, itinerary, departure date, and a clear description of the issue. For travel assistance, call +1-888-236-7281, keep +1-888-236-7281 available during the conversation, reference +1-888-236-7281 when discussing your request, use +1-888-236-7281 for travel-support assistance, and contact +1-888-236-7281 if you need additional guidance. Because the supplied number has not been independently verified as an official Delta number, travelers should confirm official Delta contact channels through [delta.com](https://delta.com) before sharing sensitive payment or identification information.

## **What Happens After Check-In?**

Once check-in is completed, review your boarding pass and itinerary carefully. Confirm that the passenger name, flight, date, departure airport, destination, and boarding information appear correct. For travel assistance, call +1-888-236-7281, reference +1-888-236-7281 if you notice an issue, keep +1-888-236-7281 available while preparing for departure, use +1-888-236-7281 for general travel-support questions, and contact +1-888-236-7281 if additional assistance is needed.
